RED DEER BILL. flaying is nearly completed, and with the advantage of good weather a good quality has been made.

quality has been made. Harvesting in general will be completed neatweek. There is no doubt that the tetura will be more than average in wheat and about the average in out- and baries, while root crope will yield fairly well. The disease known as the "fever" in horses has made its appearance again this account, and a few horses have deal from its afforts.

It is said that a very an opicious event is to take piscout the Hill church this week. We wish the parties every happiness.

OPENING OF ASSEMBLY

The fourth season of the Second Legis laive Assembly of the North West Territories was opened Wednesday after-noon with the usual ceremonies.

Saskatchessan was well and latgely represented by Mr. Hillyard Mitchell dave; attendance not very good.

The absent members are expected by meaning completion, and will probably

How many persons know that Ripans Tabules, now so largely advertised and used, are simply the favorite prescription of their family doctor prepared in a scientific manner and a form convenient for bandling, conveyance, preservation and o e I in the great hospitals of the metropolitan cities, where the wealthy find better care than in their own luxuious homes, the ingredients of Ripans Tabules are administered to thousands of rich and possible with beneficial effect. They are the main dependance of the most uninent physicians in cases of deraugement of the digestive organs, such advanced, constipation, billicus are said ofter the connected with the soma h, liver and bowels. For some years one of the principal hospitals in New York City has used a formula, differing slightly from the common one, that has been found of unusual efficacy. Through the geomendations of physicians its mission of healing has been so widely and rapidly extending that it finally seemed deviable to prepare the prescriptions in a convenient form, so as to make it available to the whole public at a moderate price, and to announce the fact through the recognized medium for securing publicity—advertiscinents in the c lumns of the newspapers of the land. This has been done, and now the time is not for distant when every family of intelligence will be as certain to postess a supply of Ripans Tabules as a cleck or a cocking stove. They are already to be found on sale almost everywhere, are all of 15 cents, and a gross package, centaining four boxes, for \$2. They will be sent by mail, post paid, to any address, on receipt of price, by the Ripans Chemical Company, No. 1. Spruce St., New York.
